- Make efficient use of desk space with single compact footprint for multiple monitors
- 13 cm (5") height adjustability
- Integrated cable management
- Monitors can be installed portrait or landscape
- 5 year warranty

Ergotron® LX

Dual and Triple Display Lift Stands

Raise your displays to maximum productivity

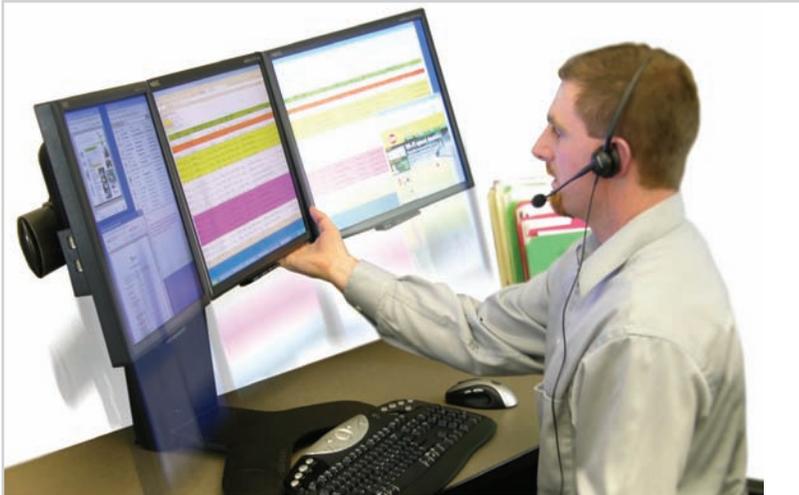

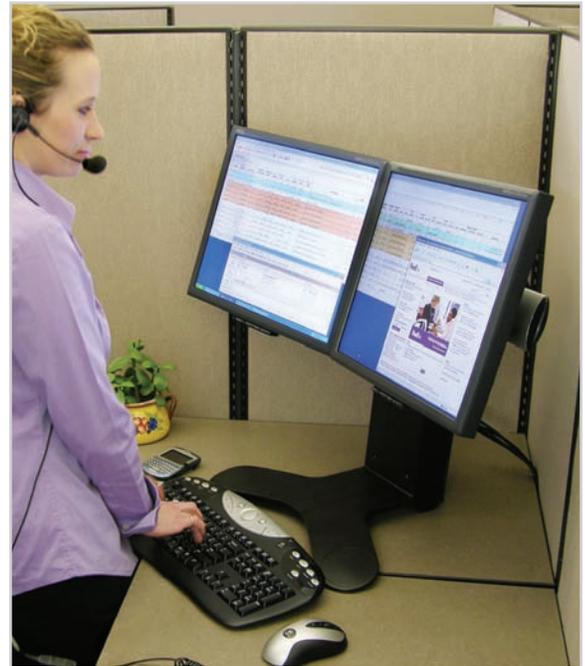

Increase productivity and accuracy up to 50% with the innovative Ergotron LX Dual and Triple Display Lift Stands. Stream line your work processes with multi-display computing. With several documents in front of you at one time the LX Dual and Triple Stand enable you to multi-task and keep control over more information while working in an ergonomic environment. This unique solution on the market lets you simultaneously lift and tilt displays with just a touch of the hand for maximum ergonomic comfort.

- 13 cm of height adjustment allows to raise displays to maximum ergonomic comfort
- Move monitors effortlessly in unison, no knobs or levers necessary
- Stream line work processes with multi monitor configuration and improve efficiency

90° pivot for portrait or landscape viewing.

Cables are guided behind the stand for a clutter-free work area.

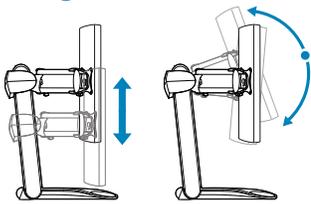

Lift and tilt your displays in tandem.

Why use a multi-screen configuration?

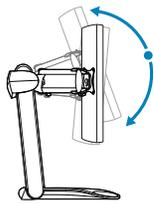

- 33% fewer errors are reported as a result of multi-screen configurations.
- 24% of workers feel more comfortable when using multiple monitors.
