

Combine your cordless phone and Skype calls, all in one.

- Must be used with NETGEAR Dual-Mode Cordless Phone with Skype (SPH200D)
- Dual-mode cordless phone to make land line and Internet Skype calls without a PC*
- Add up to a total of 4 phones

How it works

NETGEAR's Accessory Handset Cordless Phone with Skype (SPH150D) enables you to add another handset to your Skype cordless phone system. The SPH150D must be used with NETGEAR's Dual-Mode Cordless Phone with Skype (SPH200D). The Netgear Cordless Phone with Skype (SPH200D) supports up to three additional handsets (SPH150D).

- Call your friends through the Internet, for FREE*
- Make and receive traditional phone calls. This phone plugs into your land line phone jack
- Call ordinary phones worldwide for pennies per minute, NO MONTHLY FEES*
- Manage your contact list and see who's available to talk to
- Use premium services like SkypeIn, SkypeOut, Skype Voicemail (additional fees apply)
- Supports up to 4 handsets per household (each handset sold separately)
- DECT cordless phone technology - ideal for long range and clear voice quality
- Multiple languages supported

* For calls made through Skype and or the SkypeOut service. Terms and conditions of the Skype services are subject to change at any time in the sole discretion of Skype Limited.

Three ways you can connect with the Cordless Phone with Skype

Skype-to-Skype

These over-the-Internet calls are always free, anywhere in the world*

SkypeIn / SkypeOut

Used to make or receive regular phone calls over the Internet at pennies-per-minute*

Traditional Phone

Use the SPH200D as a regular phone through the use of a "Land Line"

The NETGEAR Dual-Mode Cordless Phone with Skype (SPH200D) supports up to three additional handsets

This product requires the use of the NETGEAR Cordless Phone with Skype (SPH200D)

Frequently asked questions on NETGEAR's Dual-Mode Cordless Phone with Skype

- Q:** What is NETGEAR's Accessory Cordless Handset with Skype?
- A:** It is an additional cordless phone handset to expand your NETGEAR Dual-Mode Cordless Phone with Skype (SPH200D) system, up to a total of 4 phones.
- Q:** What is NETGEAR's Dual-Mode Cordless Phone with Skype?
- A:** A cordless phone that enables you to make and receive free Skype Internet calls without using your PC. You can also make inexpensive calls to any normal phone using SkypeOut service.*
- Q:** Can I use this phone to make and receive calls through my home phone line?
- A:** Yes, you can use it to replace your home phone and make/receive calls through your home's normal phone line or land line.
- Q:** Can I use it to talk with non-Skype users?
- A:** For pennies a minute, and no monthly fee, you can use SkypeOut minutes to call any phone.*
- Q:** What does the term "DECT" mean?
- A:** DECT (Digital Enhanced Cordless Telecommunications) cordless phone technology uses 1.8/1.9 GHz band, which avoids interfering with WiFi networks unlike some other cordless phones—ideal for long range and clear voice quality.

* Battery talk and standby times are estimates only and depend on network configuration, signal strength, features used, battery age and condition, charging practices, temperatures to which battery is exposed, and many other factors. Please note that the amount of time a phone is used for calls will affect its standby time. Likewise, the amount of time that the phone is turned on and in standby mode will affect its talk time. For further information please refer to the phone's user guide.
