HP MX10 Retail Solution

Slip the HP ElitePad Mobile POS Solution into the HP Retail Expansion Dock for a fully integrated solution.

November 2013

Note: Shown with HP Receipt Printer, Barcode Scanner and Cash Drawer. All sold separately.

Adapt to the sales flow to meet customer needs and deliver an exceptional experience anytime, anywhere. With the HP MX10 Retail Solution, it's a snap to transition from a fixed POS to a mobile service – and back. Verify prices, search inventory, and complete sales transactions to make the most of every sales opportunity.

Retail where it needs to be.

From mobile to stationary and back again – it's a snap.

Impress customers with the ultimate service experience. Verify prices, search for inventory, and complete sales transactions not only at the counter, but anywhere in the store.

Integration is a snap.

Switch to counter service in no time. Just snap the mobile unit into its docking station for a complete POS solution that integrates into your existing infrastructure. Enhance customer service and put your POS power tools to work for you. Dock at the sales station and connect all of your peripherals via serial, USB, and RJ-45 ports.

There for customers, there for business.

React quickly and never miss a sale with the flexibility to meet customer needs during peak hours and increase associate productivity during non-peak hours.

Ready to go when they're ready to buy.

Mobile or stationary, this POS retail solution provides versatility with built-in POS functionalities.

Make room for more sales.

Maximize counter space to enable more revenue opportunities. The compact design of the HP MX10 Retail Solution frees valuable counter space to promote more of your products.

Always connected.

Access all ElitePad¹ essentials, including camera, pass-through stereo sound, headphone jacks, and more—even with the retail jacket on.

- Not all features are available in all editions of Windows 8. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows 8 functionality. See microsoft.com. The integrated display resolution is below the threshold for snapping apps, a new feature that allows two Windows apps to be viewed simultaneously side by side. This feature may be enabled by attaching an external display which supports a screen resolution of 1366 X 768 or higher.
- Sold separately or purchased as an optional feature.
- Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.
- Memory operates at the maximum system supported speed of 533 MHz.
- For Solid State drives (SSD), GB = 1 billion bytes. Actual formatted capacity is less. Up to 5 GB for Windows 8 is reserved for system recovery software. 7 This system is Windows 8 certified and supports the new Windows UI. The integrated display resolution is below the threshold for Snap, a Windows UI feature that allows two Windows Store apps to be viewed simultaneously. This feature may be enabled by attaching an external 1366 X 768 or higher resolution display.
- Wireless access point and internet service required. Availability of public wireless access points limited.
- Service levels and response times for HP Care Packs may vary depending on your geographic location. Service starts on date of hardware purchase. Restrictions and limitations apply. For details, go to hp.com/go/lookuptool.
- Requires initial user setup.
- Requires Microsoft Windows and initial user setup.
- Requires Internet Explorer – some websites and applications may not be supported.
- Requires an Internet connection to an HP web-enabled printer. Printer requires HP ePrint account registration. Driver update may be required. For more details, go to hp.com/go/eprintssoftware
- Requires Windows 8.
- HP ElitePad includes a 4-year license of Absolute Data-Protect to locate your device, lock and prevent unauthorized access, and remotely delete personal data. See absolute.com/landing/2012/computrace-hp for complete details. Absolute Data Protect agent is shipped turned off, and must be activated by customers. Service may be limited, check with Absolute for availability outside the U.S. The optional subscription service of Absolute Recovery Guarantee is a limited warranty. Certain conditions apply. Full details visit: absolute.com/company/legal/agreements/computrace-agreement. If Data Delete is utilized, the Recovery Guarantee payment is null and void. In order to use the Data Delete service, customers must first sign a Pre- Authorization Agreement and either create a PIN or purchase one or more RSA SecurID tokens from Absolute Software.
