Home Control

Door/window contact

Your personal bouncer.

The **devolo door/window contact** discreetly monitors all entrances and exits of your smart home. It reliably detects open doors, windows or drawers and sounds the alarm if something isn't right.

Door/window contact

Product features:

- Detects open doors, windows or drawers without fail and sends text or e-mail notifications.
- Versatile installation via adhesive film or screws (both in the scope of delivery).
- Continuous brightness and temperature measurement, e.g. as feedback to the light and radiator control.
- Intuitive operation via an app for smartphone, tablet and computer.
- Unobtrusive design for inconspicuous placement.
- Individually expandable at any time with other devolo Home Control components.
- Future-proof thanks to innovative Z-Wave® wireless technology.
- 3-year manufacturer's warranty.

Application example:

if

the door/window contact reports an open door

then

the switch and meter socket switches the light on.
