Product Features

WD quality inside and out

Designed with the same commitment to quality that made WD external drives the number one selling drives in the world.

Preformatted for PCs

Designed for use with Windows-based computers. Can be easily reformatted for use with Macs.

Power miser

WD Elements external drives with WD GreenPower Technology™ are designed to save energy. They reduce internal drive power consumption by up to 30%, a sleep mode reduces power during idle times, and a power-saving feature turns the drive on and off with your computer.

Plug-and-play simplicity

Just connect the power and plug it in to a USB port to instantly add more storage to your computer.

USB 2.0 interface

A simple connection that offers convenience and compatibility among multiple computers.

Planet friendly

We designed a small retail box from recycled materials to minimize waste. We encourage you to recycle it.
