

# Laddvagn / Säkerhetsvagn – Small / Large for laptops, iPads / Tablets

... mobile classroom with an unbeatable combination of security, mobility and versatility.

Partno. 62844K / 62844 / 62855K / 62855

CE

Very sturdy construction with the same approved locking mechanism of the high safety type as classified safety cabinets. Provides a very burglary-proof storage.

Can be ordered with approved Key Lock or with an advanced and approved Code Lock with many functions.

10 Laptops / 20 iPads/ Tablets/Mini-Laptops (Small) or 20 Laptops / 30 iPads/ Tablets/Mini-Laptops (Large) can be stored and charged simultaneously in the cart.

The cart shelves can be set at the desired height level and can also easily be removed and adapted as needed.

Outlet strips are mounted in the front edge of the cart. The Laptops/Tablets power adapters is connected to the socket list and stored on its shelf.

Equipped with specially adapted wheels of very high quality which gives an easy to roll, smooth and functional cart.

As an option there is an Thermostat-controlled fan (636) if you want the computers in operation, for example, when updating at night (fan is not needed for charging only)

The cart is equipped with a slot for easy locking with the optional "Anchor kit- Wall" (630). Prevents unwanted mobility.

With the optional "Mounting Shelf-Top of the Cart (632), printers or other equipment can be mounted on the top of the cart.

(Scratch resistant powder coating that can withstand tough conditions).

## Charging Cart / Safety Cart - Small / Large

- Charging Cart/Safety Cart - Small & Large from CEKA-AnchorPad is an unbeatable solution for simultaneous storage, moving and charging of Laptops, iPads / Tablets and is available in two versions:

**Small (62844)** which holds 10 Laptops or 20 iPads / Tablets / Mini-Laptops.

**Large (62855)** which holds 20 Laptops or 30 iPads / Tablets / Mini-Laptops

- Mobility enables the cart to function as a **mobile classroom** or in any context where the moving and charging of Laptops/Tablets needs to be done.
- Made in a very solid steel construction with the same locking mechanism as classified safety cabinets. The cart is by far the most **safest** on the market.
- Can be ordered in versions with approved keylock of high-security type or with advanced and approved code lock with many settings options that are a good choice if you are many users and eliminate key management. Unique design means that if the battery runs out of the Code-Lock, the battery is easily replaced from the outside of the cart.
- Lacquered in scratch resistant powder coating to withstand tough grips.
- The cart has fixed shelves that can be set at the desired height level if the cart needs special adaptation.
- Equipped with specially adapted wheels of very high quality which gives an **easy to roll, smooth and functional cart**. 2 of the wheels are fixed and 2 are rotatable with brake to avoid so-called shopping cart effect.
- The cart is CE-Marked for safe use and equipped with grounded sockets (220v) for connecting the Laptop/ Tablets power adapters. Connection is then made to standard 220v sockets.
- As standard Charging Cart/Safety Cart - Small comes with 10-sockets and Charging Cart/Safety Cart - Large with 20-sockets. Additional socket strip is available as an option if more sockets are needed (635).
- Smart Charging via App / Wifi. Easy scheduling of charging in groups to minimize load on the electrical system
- An optional 3-phase adapter is available if you want to charge the Computers/ Tablets via a 3-phase socket.
- As an option, the Thermostat-controlled fan (636) is available if you want the computers in operation, for example when updating at night (fan is not required for charging only). If necessary for a network switch, this can be mounted on any shelf in the trolley.

### Options available for purchase as needed:

- Anchor kit wall (630) - Approved chain to prevent unwanted mobility.
- Portable Threshold plate (643) that makes it easy to drive even over high thresholds.
- Mounting shelf - Top of the cart (632).
- Charging / Sync device for 16 iPads/ Tablets (6899-16) and Charging Station-USB-6-Port (6899-6).  
(The cart holds several Charging/Sync units / Charging stations, allowing charging of additional iPads/Tablets if necessary).
