Custom Keyed Solutions

Unlike other manufacturers, Kensington offers a variety of Custom Keyed products that provide various levels of access to locked equipment

Compatibility

Notebooks, Desktops, Docking Stations, CPU's, Hard Drive Memory, TFT Monitors, Projectors & more

Locking Mechanism

Patented T-Bar

Warranty

Limited Lifetime Warranty

Options

Slim MicroSaver, Twin MicroSaver, MemorySaver & Desktop MicroSaver

Features

- Minimum order quantity is 50 units
- Orders must be in increments of 25
- Initial orders include 2 Master Keys
- You may order different security products within the same Master Key system

For further information or to place a Custom Key order, please contact a Kensington representative

1 Master Keyed

Master Keyed products give you more control over equipment while helping employees safeguard against internal theft. Master Keyed products also help reduce downtime caused by lost or misplaced keys. With each Custom Master Key solution you get unique locks & keys on each individual product in the order. Plus, one Master Key that can open all the locks in order

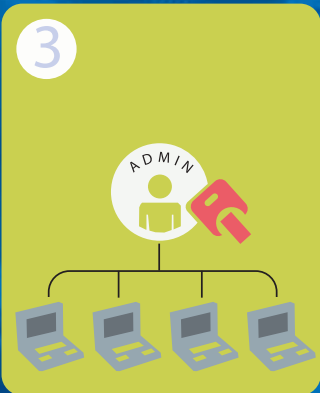

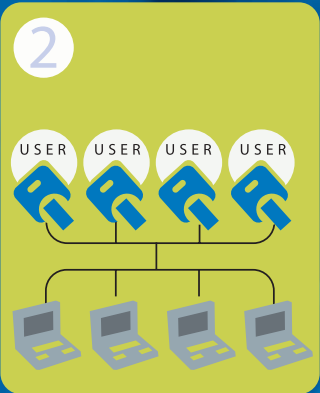

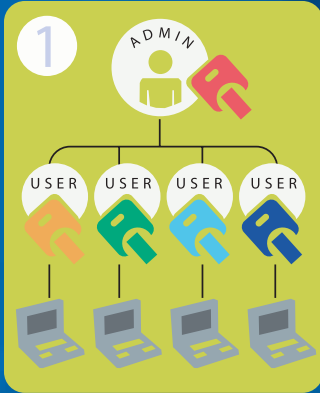

2 Like Keyed

Like Keyed products are ideal for companies whose risk of internal equipment & data theft is lower. They suit companies where employees share equipment & where there is no IT Manager to hold a Master Key. With each Custom Like Keyed order you get matching locks on each individual product on the order that can be opened with identical keys

3 Single Keyed

Single Keyed products give you the highest level of control over equipment since you only have one set of keys. It is the best solution for laboratories & educational institutes where computers can be locked in place & should only be unlocked by IT Managers. With a Single Keyed solution you get matching locks on each individual product that can be opened with the one Master Key
