Point.
Smart Home Alarm

Protect Your Home

Point is a home security system designed with humans in mind. That means it's easy to use and install. It is also unique in respecting your privacy.

Instant security alerts

If the unexpected should happen, Point sends a notification to your preferred device.
Work with your neighbours

Collaborate with your friends, family and neighbours to create the network behind your smart home alarm system.

Fully Automatic Alarm

Point knows the last person to leave your home and turns on the alarm automatically if you desire.

Keep a healthy home

Track your home environment to ensure that the temperature and humidity remains at a healthy level. Point notifies you if your home is within the risk zone of developing mould.
