

igloohome

Padlock

Convenience made smart.

The ultimate balance between security and convenience.

The igloohome Smart Padlock strikes the perfect balance between security and convenience. Built with versatility in mind, it is the most flexible padlock that allows for time-sensitive access. It's flexibility gives you a wide variety of use cases and it's also jam-packed with features for convenient access control.

Tailor-made for everyday use

Use it for gym lockers, or to secure your bicycles, or even on your side yard gates; the possibilities are endless.

Inspired by nature's grit

Suitable for both indoor and outdoor usage, it's sturdy and reliable just like nature's grit - the pebble. It features top notch materials to ensure your assets are always secured.

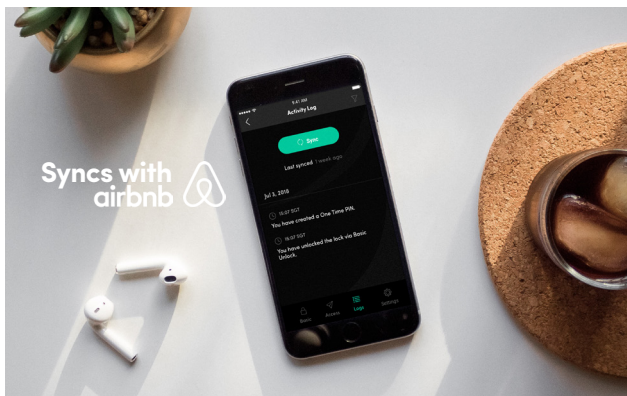

Form and function in one

Equipped with the right mix of 'smart' elements yet portable enough to fit perfectly in your palm, its form and function in one versatile solution.

Access at your fingertips

All igloohome devices work with the igloohome mobile app. You can manage access to your property anytime, anywhere.

Greater peace of mind

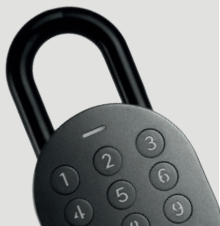

Unlike conventional padlocks, the igloohome app allows you to track the dates and times at which your padlock was accessed. Activity logs gives you greater visibility for a greater peace of mind.

**Bluetooth key logs are updated in real time, and PIN code logs are updated when the master owner uses a Bluetooth key.*

Features

Keypad Security Lockout

Keypad is disabled after several incorrect PIN code attempts to ensure your assets are always secure.

Interchangeable Shackle

Customised versatility for you. Use the interchangeable shackle to cater to your needs.

Relock Reminder Alert

Never forget to lock up after accessing the Padlock. The reminder alert prompts you to fasten the shackle when you're done.

Features

Masking Security Code

Enter random digits before your code to throw off possible onlookers. Your PIN code is kept confidential with this added layer of security.

Quick Unlock

Easy access every time. Simply press any button on your Padlock when your phone is within range.

*Function must be turned on via app. App must be logged into & running in the background.

QR Access Request

Greater visibility on access to your assets and properties. Approve and send Bluetooth keys to the right people.

Specifications

Body	55 x 70 x 32mm
