

BLACK GRAY BLUE PINK

Travel deeper into music and leave time behind

With support for 25 hours' continuous playback, you're free to dive into music and forget the passage of time with no battery worries. The S3wireless also features Fast Charge providing four hours' playback in just 10 minutes, enough to get you where you're going. Extra-large ϕ 40 mm ($1 \frac{9}{16}$ " drivers reproduce deep, powerful bass, while support for the AAC codec, ideal for the iPhone, delivers a higher-quality musical experience. Operability is simple with a single button handling music control, call management, and press-activation of smartphone voice assistants. Like the Pioneer name—respected by DJs all over the world thanks to our long association with hip-hop, electronic, and club music culture—the S3wireless has authenticity other brands can't match. Minimalist Japanese styling and a portfolio of four distinctive, carefully matched color-schemes complement functional yet elegant proportions.

Stamina Battery for 25 hours playback

You don't need to recharge every day thanks to Stamina Battery, which delivers 25 hours continuous playback. Recharge in just two hours via the rotationally symmetrical USB Type-C terminal, which accepts the cable plug from either side for quick and easy connection.

Fast Charge in minutes

If you realize the battery's low and you're heading out, Fast Charge will push four hours' worth of wireless playback into your headphones in just 10 minutes. Enough to get you to work or school with that playlist you've been looking forward to.

The biggest drivers in its class

The S3wireless packs some serious hardware with extra-large $\Phi 40$ mm ($1 \frac{9}{16}$ ") dynamic drivers producing exhilaratingly deep bass and a clear mid-range for vocals. Support for the high-quality AAC wireless audio codec enhances a sense of resolution, and is ideal for use with the iPhone.

Folding design for easy portability

Swiveling and folding mechanisms tuck the housings inside the headband for easy storage in your bag, no cable mess. Slim profile lets it slip into narrow briefcases or handbags, so you really can have music wherever you go.

Connect two devices at once

Multi-point Function lets you wirelessly connect two devices at once. You can listen to music from your tablet while being connected and ready to take incoming calls from your smartphone.

Note: Only one device can make/receive calls or play audio at the same time.

Access your voice assistant

Press and hold the center button to activate the voice assistant on your Google Assistant or Siri enabled smartphone. Once connected, your assistant will respond to a variety of commands without you needing to reach for your device.

Bluetooth® 5.0 wireless connectivity

The S3wireless incorporates the latest Bluetooth® 5.0 wireless technology. Once you have registered the headphones to your smartphone, it will connect automatically when selected from a list of available devices shown on your touchscreen.

Hands-free wireless music and calls

Everything you need for hands-free control, such as intuitive volume adjustment and track selection, is via a single multi-function button on the housing. Voice Assistant or Call Reject activates when the center button is pressed and held; Play/Pause and Call Accept/End with a single press (center); and Redial with a double press (center). Volume Up/Down is performed with a press up/press down gesture on either end of the button, while pressing and holding up or down skips tracks forward or back.

Raise Volume (Press Once)
Skip Forward (Hold)

Play/Pause; Accept/End Call (Press Once)
Redial (Press Twice)
Voice-Assistant Activation; Call Reject (Hold)

Lower Volume (Press Once)
Skip Back (Hold)

Power On/Off (Hold)
