

BLACK GRAY BLUE RED

Create a serene scene for music

These compact on-ear noise-cancelling headphones invite you into a peaceful world of music during flights, on the train, at the café, or in shared workspaces with no intrusive outside noise. Forget battery worry thanks to 30 hours' continuous playback and a convenient Fast Charge function that refreshes your headphones with three hours of playtime in just 10 minutes. Extra-large Φ 40 mm ($1 \frac{9}{16}$ ") dynamic drivers deliver deep, powerful bass and expressive mids. Like its S3wireless sibling, the S6wireless noise-cancelling headphones infuse minimalist Japanese design into compact proportions and four matching color-schemes, an authentic look that echoes Pioneer's long history with music-makers in the hip-hop, club, and electronic music scenes.

SOUND QUALITY FEATURES

- › Pioneer Active Noise Cancelling creates an optimal listening environment (wired and wireless connection)
- › Extra-large Φ 40 mm ($1 \frac{9}{16}$ ") drivers for powerful bass
- › Clear, balanced, natural sound with deep low-frequency response
- › Supports AAC codec for high-quality wireless transmission
- › Deep housing and earpad profile enhance sound isolation

WIRELESS HANDS-FREE FUNCTIONS

- › Features the latest *Bluetooth*® 5.0 wireless technology
- › Button activates Voice Assistant/Call Reject (press and hold center); Play/Pause and Call Accept/End (press center); Redial (double-press center); Volume Up/Down (press up/press down); and Track Skip Forward/Back (press and hold up/press and hold down); separate button for ANC ON/OFF (press once) and Power ON/OFF (press and hold)
- › Easy press-and-hold activation of smartphone voice assistants
- › Pair two devices with Multi-point Function, enabling call monitoring on smartphone and music playback from tablet simultaneously
- › Supports free Pioneer Notification App for Android™ which reads out notifications of text messages, emails, SNS, and more via headphones

BATTERY & PLAYTIME

- › Stamina Battery supports up to 30 hours' continuous connection including playback (ANC off) or 20 hours (ANC on)
- › Fast Charge replenishes battery for 3 hours' playback in just 10 minutes
- › Battery fully recharges in approximately 3 hours

DESIGN ERGONOMICS

- › Headphones fold flat and inward for compact storage in bags
- › Choice of four beautiful matching color-schemes

- › Wide headband with padded cushion provides extra comfort
- › Deep, comfortable earpads suit most ear sizes
- › Reversible USB Type-C charging terminal

SPECIFICATIONS & ACCESSORIES

- › Model number: SE-S6BN
- › Transmission method: *Bluetooth*® Version 5.0
- › Output: Bluetooth Standard Protocol Power Class 2
- › Transmission distance: Up to 10 m (32 ft.)
- › Frequency used: 2.4 GHz (2.4000 GHz–2.4835 GHz)
- › Modulation: FHSS
- › Supported *Bluetooth* profiles: A2DP/AVRCP/HFP/HSP
- › Supported codecs: SBC/AAC
- › Multi-pairing: Max. 8 devices
- › Multi-point: Max. 2 devices
- › Battery: DC 3.7 V rechargeable lithium-ion
- › Battery time: Max. 30 hours of continuous transmission including audio playback (ANC off) or 20 hours (ANC on)
- › Charging time: Approx. 3 hours
- › Type: Wireless Active Noise Cancelling headphones
- › Driver: Φ 40 mm ($1 \frac{9}{16}$ ") dynamic driver
- › Frequency response: 10 Hz–22,000 Hz (With *Bluetooth* connection) 10 Hz–28,000 Hz (With wired connection)
- › Weight: 205 g (7.23 oz.)
- › Supplied with USB Type-C charging cable, detachable 1.2 m (4 ft.) male-to-male 3.5 mm ($\frac{1}{8}$ ") mini-stereo headphone cable, instruction booklet

Package dimensions (W x H x D)
133 mm x 203 mm x 60 mm
(5 $\frac{1}{4}$ " x 8 x 2 $\frac{3}{8}$ ")

Active Noise Cancelling (ANC)

ANC creates a near-silent backdrop for your music to fill, transforming noisy aircraft cabins, train cars, workspaces, and cafés into tranquil environments where you can relax and enjoy music in peace. Noise cancellation works with both wired connection (using the supplied detachable headphone cable) and wireless connection via *Bluetooth*[®] wireless technology.

Play longer, go further

Enjoy the longest playback time available in this headphone class with 30 hours' continuous playback (ANC off) or 20 hours (ANC on), enough for the longest flights. If you forget to recharge and notice as you're leaving, Fast Charge supplies three hours' worth of playback from a 10-minute charge: enough to get you to work, school, or wherever you're headed.

Signature Pioneer sound

The headphones equip extra-large Φ 40 mm (1 9/16") dynamic drivers, enabling powerful bass and a wide frequency response. Skillful tuning results in a detailed mid-range for vocals and smooth, unfatiguing treble. Sound quality is further enhanced by the high-quality AAC wireless audio transmission codec, which reduces loss and latency and preserves audio reproduction quality, especially on the iPhone.

Folding design for easy portability

Swiveling and folding mechanisms tuck the housings inside the headband for easy storage in your bag, no cable mess. Slim profile lets it slip into narrow briefcases or handbags, so you really can have music wherever you go.

Connect two devices at once

Multi-point Function lets you wirelessly connect two devices at once. You can listen to music from your tablet or laptop while being connected and ready to take incoming calls from your smartphone.

Note: Only one device can make/receive calls or play audio at the same time.

Hands-free wireless music and calls

Everything needed for hands-free control comes via one multi-function button on the housing. Voice Assistant or Call Reject activates when the center button is pressed and held; Play/Pause and Call Accept/End with a single press (center); and Redial with a double-press (center). Volume Up/Down is performed with a press-up/press-down gesture, while pressing and holding up or down skips tracks forward or back. The Power ON/OFF button (press and hold) also enables ANC ON/OFF with a single press.

Raise Volume (Press Once)
Skip Forward (Hold)

Play/Pause; Accept/End Call (Press Once)
Redial (Press Twice)
Voice-Assistant Activation; Call Reject (Hold)

Lower Volume (Press Once)
Skip Back (Hold)

ANC On/Off (Press Once)
Power On/Off (Hold)

Access your voice assistant

Press and hold the center button to activate the voice assistant on your Google Assistant or Siri enabled smartphone or tablet. Once connected, your assistant will respond to a variety of commands without you having to reach for your device.

Love the freedom of wireless audio

The headphones equip *Bluetooth* 5.0 wireless technology as featured on the latest smartphones. Feel the freedom of unrestricted movement with no cables to snag or tangle. Wireless connection is easy: once you've registered the headphones to your device once, they pair automatically when selected from a list of *Bluetooth* devices displayed on your screen.
