EPOS Business Solutions

# EXPAND Meeting Solutions

# Seamless collaboration

As virtual communication becomes increasingly important for businesses around the world, the quality and reliability of conferencing devices is more essential than ever. We created the EXPAND Line of premium audio to specifically address the needs of decentralized teams, often working across locations and time zones.

Whether collaborating in small, medium or large meeting rooms, huddle spaces or for portable use on-the-go, every model in the EXPAND Line is designed and crafted for clear conversation, ease-of-use and perfect connectivity with all your devices.

Thanks to enhanced voice pickup and superior speaker sound, everyone on conference calls can participate and engage with the same confidence and clarity as being there in person. By enhancing communication between your colleagues – and customers – the EXPAND Line gives you the tools you need for seamless collaboration.

# EXPAND Meeting solutions

## Connect with your world

Some meetings simply can't wait. With the EXPAND Line, your team can set up conference calls seamlessly and instantly, with easy-to-connect speakerphones that are simple and intuitive to manage, and configure themselves automatically with all your devices. EPOS craftsmanship is known around the world for quality, reliability, and superior materials – built into sleek and compact designs that perfect the essentials, without any unnecessary parts or buttons.

Designed for personal and shared use, at the office and on-the-go, the EXPAND Line gives you the freedom to turn any space into a hassle-free virtual meeting room, anywhere in the world. Discover the EXPAND Line of collaboration tools designed for permanent setups as well as portable use. Intuitive and exceptionally easy to use, every solution is designed and crafted to perfection with best-in-class voice pick-up, guaranteeing outstanding sound for you, your team, and your customers.

# The facts EXPAND

For the **69%\*** of office workers who use a headset or speakerphone for conference calls, seamless collaboration is vital. Which is exactly why we created the EXPAND Line.

We know that **59%\*** of workers use an audio solution every single day, so we created this line to be of the best quality and reliability out there.

Because **37%\*** of every day collaborators spend more than half their time away from their desk, the EXPAND Line is designed and crafted for flexibility, ease-of-use and perfect connectivity with all devices.

# 69%

Need seamless collaboration

# 59%

Use audio solution every day

# 37%

Of collaborators spend more than 4 hours away from desk

\* Insights report: "The way we work 2019"

# Find your perfect match

The following different meeting scenarios will help you identify your perfect conferencing solution. Choosing the right solution can save you time and money and boost collective productivity.

## Own Desk

**Personal workspaces**  
– for 1 individual

For professionals that take calls alone in a personal workspace and listen to music to aid concentration at work.

## Personal Rooms

**Booth rooms, personal offices, hotel rooms**  
– for 1 individual

For professionals that take calls alone at the office or on-the-go and listen to music to aid concentration at work.

## Huddle Rooms, small meeting rooms

**Small intimate spaces, small meeting rooms**  
– for 2–6 individuals

For professionals that work with team members across geographic locations, often needing to meet and align in small huddle rooms.

## Medium Meeting Rooms

**Conferencing in medium to large meeting rooms**  
– For 6–12 individuals

For professionals that participate in regular, formal meetings, presentations and interviews across geographic locations in medium to large meeting rooms.

## Large Meeting Rooms

**Conferencing in large meeting rooms**  
– For 12+ individuals

For professionals that participate in regular, formal meetings, presentations and interviews across geographic locations in large meeting rooms.

# EXPAND 80 Series

## Unite your team

Unite colleagues with a premium, scalable Bluetooth® speakerphone for up to 16 in-room participants. Thanks to six adaptive, beamforming microphones that isolate the human voice from room reverb and ambient noise, everyone in the room can be heard and colleagues out of the office are closer to the conversation.

Connect easily via Bluetooth®, USB-C or NFC and listen as the room fills up with rich, natural sound – perfect for dynamic conferences

and audio-visual presentations. Crafted with high-quality materials and fabric by Kvadrat, you get excellent resonance damping and a professional aesthetic for your workplace. For even larger meetings, expansion microphones allow you to adapt to the demands of your business. EXPAND 80 offers a space to meet and align in real time – enabling the confidence and clarity that boosts collective performance.

See more at [eposaudio.com/expand-80](https://eposaudio.com/expand-80)

## Key benefits & features

### Get your message through with EPOS Voice™

Six adaptive, beamforming microphones and DSP intelligently isolate voices from room reverb and ambient noise

### Rich, natural sound

Powerful ultra-low distortion speaker in a unique patent pending suspended speaker box fills the room with outstanding sound, enabling superior duplex performance that allows simultaneous speech

### Superior craftsmanship, statement Scandinavian design

Crafted with high-quality materials and sound-enhancing fabric by Kvadrat with a premium, minimalist aesthetic

### Expand your meetings

Attach up to two expansion microphones for larger meetings

### Set up your conference call in seconds

Enjoy multiple connectivity options, an intuitive user interface and one touch access to your preferred Voice Assistant or Microsoft Teams\*

## Additional benefits & features

### Resonance dampening Kvadrat\*\* fabric

Contributes to a smooth sounding system providing voices with warmth and clarity

### Protect your device

With Kensington lock support

### USB dongle parking place – easy to locate

BTD 800 USB dongle enables easy Bluetooth® connection to all devices

### Conferencing across devices

Merges PC/softphone and mobile calls into one conference

### Customized set-up

With detachable USB-C cable

### One touch access

To Voice Assistant or Microsoft Teams functionalities

### Intuitive sound design

With voice prompts created by Felt music

\* Applies to EXPAND 80T

\*\* Danish design technical fabric brand

# EXPAND 80 Mic

## Expand your conferences

Boost the range of your EXPAND 80 speakerphone with expansion microphones that enable superb call clarity optimized for UC and certified for Microsoft Teams. Attach one or two microphones to fit the size of your meeting room and optimize your collaborations.

Ensure effective communication where all participants are close to noise-cancelling microphones that deliver excellent voice clarity. Maintain a professional, stylish conference table with smart cable management developed for optimal system function and ease of use. Crafted from the same high-quality materials as EXPAND 80, EXPAND 80 Mic creates a unified look and feel to your meeting room and elevates the interior design. Extend the range and possibilities of your EXPAND 80 conference solution and empower the performance of your entire team.

See more at [eposaudio.com/expand-80-mic](https://eposaudio.com/expand-80-mic)

## Key benefits & features

### Larger meetings UC optimized, and Microsoft Teams certified

For larger meetings attach up to two expansion microphones for a UC optimized and Microsoft Teams certified experience

### Ensure everyone is heard clearly

Each EXPAND 80 Mic contains 4 beamforming microphones, so every in-room participant is always close to a microphone

### Smart cable management for professional, stylish meetings

Customize cable length to your meeting room with smart cable management for an optimal system setup

### Plug and play conferencing

Simply plug into the EXPAND 80 and start your meeting. Once connected the entire set-up acts as one integrated system.

### Statement Scandinavian design

With sleek, minimalist aesthetic and high-quality materials that match EXPAND 80

# EXPAND 30 Series

The EXPAND 30 Series is a portable wireless speakerphone for today's mobile workforce. Supporting both personal and small to medium sized conferencing up to 8 people, it is possible to set up a conference call at a moment's notice in any location or use the device as part of a permanent conference room solution.

A choice of Bluetooth® or USB-C connectivity gives freedom and flexible connection options. Two long-range, noise and echo cancelling microphones and an ultra-low distortion speaker with clear voice reproduction allow a natural, conversational flow even in challenging environments. For relaxing between calls, you can enjoy music performance with EPOS' renowned sound quality. With its premium materials, EXPAND 30 is a flexible conferencing tool for both in and out of the office.

See more at [eposaudio.com/expand-30](https://eposaudio.com/expand-30)

## Key benefits & features

### Experience plug-and-play conferencing anywhere

Portable with Bluetooth® or USB-C connection, multipoint connectivity – for up to three devices and one touch access to Voice Assistant/ Microsoft Teams\*

### Get exceptional audio performance for conference calls, music and multimedia

With EPOS Voice™ technology, ultra-low distortion speaker and two echo and noise-cancelling microphones with advanced algorithms

### Natural conversation experience

With industry-leading duplex performance that allows simultaneous speech

### Crafted for perfection

From premium-quality materials in a compact, lightweight design with convenient cable winding and safe dongle storage

### For personal or shared use

In huddle rooms for up to eight participants with a choice of automatic or manual reconnection for an optimal user experience

## Additional benefits & features

**Better quality conferencing** – Replaces PC/mobile speakers and microphone with an exceptional audio experience

**Conferencing across devices** – Merges PC/softphone and mobile calls into one conference

**Intuitive user interface** – With smart button grouping for ease of use

**Long talk time** – Of up to 18 hours

**Easy charging** – In just 3 hours 20 minutes via USB-C cable

**Convenience and protection on-the-move** – With a tailored carry pouch

**USB dongle parking place – easy to locate** – BT-D 800 USB dongle enables easy Bluetooth® connection to all devices

# EXPAND 20 Series

EXPAND 20 Series are compact, portable speakerphones designed for mobile business professionals who set up their office where it is most convenient. Quickly set up flexible, high quality conferencing facilities anywhere from your own personal desk or in small sized huddle rooms with up to 4 participants.

Depending on which communication device you use most, you can choose between the flexible EXPAND 20 for connecting directly to your PC or mobile phone. Perfect for both personal and small group conferences. Created for business professionals who need flexible conferencing solutions and who demand exceptional design, high-quality conference sound and user-friendly functionality. Makes conferencing simple.

See more at [eposaudio.com/expand-20](https://eposaudio.com/expand-20)

## Key benefits & features

### Experience plug-n-play conferencing anywhere

With compact, lightweight design, choice of USB or 3.5 mm jack and up to 20 hours of talk time

### Get premium sound for better meetings

EPOS quality sound, duplex performance and echo cancellation for natural conversations without straining your voice

### Personal or small group conference calls

Easy to take with you on-the-go for personal use or place in smaller meeting rooms

### Enjoy high-quality design

That looks as good as it sounds, and is crafted to perfection with high-quality materials

### As easy as it gets

With an intuitive user interface - simply connect to your PC/softphone, mobile phone or tablet and you are ready to talk

## Additional benefits & features

**Better quality conferencing** - Replaces PC/mobile speakers and microphone with an exceptional audio experience

**Outstanding communication** - EPOS Voice™ technology and echo cancellation for natural communication

**Enjoy music wherever you are** - Sound-enhancement profile for music and multimedia

**Conference across devices** - Merges PC/softphone and mobile calls into one conference

**Intuitive user interface** - Clear microphone mute button, call and volume control and easy cable management

**Convenience and protection** - Easy to take with you on-the-go in a tailored carry pouch

**Hands-free operation** - The freedom to call and work simultaneously

**Always sufficient talk time** - Visual LED battery status and voice prompts for low battery warning

# Technologies and Services

We've got you covered

# EPOS Technology

We divide our technologies into 3 subcategories: EPOS AI™, EPOS Sound™ and EPOS Voice™ to ensure a clear understanding of our technical spectrum at all ends. Our technologies span over the range of Artificial Intelligence to Sound Experience and Microphone Performance.

## EPOS AI™ – Creates an optimized audio experience

Through our commitment to exploring the Power of Audio we have developed an optimized audio experience that pushes your communication further and boosts your ability to succeed. With our user in mind, we implemented EPOS AI™ – a machine learning system embedded in EPOS audio devices that processes audio and takes decisions independently. By interacting with advanced beamforming and noise reduction algorithms, this system enables the device to automatically adapt to your speech while studying your sound environment. The technology within EPOS AI™ then successfully reduces the ambient sounds in your environment, thus, transmitting your speech loud and clear to your listener – where it matters most.

We aim to stay at the forefront of what is technically possible. With the ADAPT 660 we have launched the first edge AI based headset in the entire UC space, thus laying the groundwork to be pioneers within audio technology.

## EPOS Sound™ – Sound as if you were right there

EPOS Sound™ makes the most out of your premium audio device by delivering a natural listening experience. Through continuous monitoring of ambient sound and varying noise levels, our technology helps you concentrate while taking care of your hearing: creating an augmented and immersive audio experience that sounds as if you are speaking to someone face-to-face or are right there in the same environment. No matter where you are. What's more, you can listen to your teammates or keep an ear out for announcements without removing your headset. For more focus, block out background noise with ease and enjoy the benefits of EPOS Sound™ – while watching your performance and energy levels rise.

## EPOS Voice™ – Be understood in any environment

EPOS Voice™ improves your speech intelligibility and provides for a better conversation by creating an acoustic lens to focus on your speech. Through removing remaining noise disturbances, it ensures a more natural reproduction of the human voice. EPOS Voice™, furthermore, recognizes your environment in order to eliminate unpleasant background noise to clarify your sound picture. Making sure you can be heard no matter where you are – for the ultimate audio experience. With optimal control of noise levels, this technology allows for an effortless use of your digital voice assistants anytime, anywhere.

# EPOS Manager

## Empower your business anywhere

Save valuable time and make life simpler and smarter for your IT department, your business and your colleagues. By keeping you in touch with all your EPOS devices, EPOS Manager puts you in control of your company's UC environment in three key areas:

### Asset Management

*Get the overview*

See all your devices on the dashboard; from headsets to speakerphones and even non-EPOS devices. All users are registered in the system, which shows both active and inactive devices – who is using which device and how they are being used. Simply reallocate redundant resources to boost productivity. Reports on usage and firmware compliance keep you in complete control of company assets.

### Update Management

*Less downtime, more convenience*

A flexible and cost-effective way to get the latest firmware updates to all your organization's EPOS devices, whenever it's convenient for you and your end-users. Push new updates to an unlimited number of devices across your organization from one simple dashboard. Schedule your automated updates to cause minimum downtime and disruption to your company's workflow.

### Configuration Management

*Easy for you, easy for end-users*

The centralized configuration option allows all settings to be controlled from the IT department, ensuring that headset user's experience a simple plug and play solution. You can centrally push configurations or lock specific specifications on EPOS devices to comply with regulatory compliance settings for specific groups or individuals.

## EPOS Manager for IT administrators

EPOS Manager has been developed for companies with a need to control their UC environment in a fast and secure way. By installing the client application, EPOS Connect, on your end users' PCs, you gain a complete overview of all deployed devices and access to new updates and settings.

For companies with several locations, it's possible to manage, update and control settings for all end-users in the entire organization. For improved security, all communication and data are encrypted and no sensitive data is stored.

The resulting simplification of the asset, update and configuration management gives great savings in both time and money.

## EPOS Connect for speakerphones users

EPOS Connect is the client application running in the background on the speakerphones user's PC. The solution ensures that EPOS headsets and speakerphones work seamlessly with various leading softphones and give you access to the latest firmware updates and personalized settings.

EPOS Connect is uniquely configured to either work together with a signed-up company account on EPOS Manager or as a stand-alone application for smaller companies or personal use.

Designed to be simple to use, the application allows EPOS headset and speakerphone users to enhance and personalize their experience and productivity simply and quickly.

# Service and Support

We've got you covered

EPOS Global Service and Support aims at providing a premium customer experience to all our customers across the world. With a standardized support process across all channels, we can guarantee a uniform, consistent, structured and high quality handling for all support requests, from either end user, resellers, distributors, country partners or subsidiaries, throughout the world.
